

ChovASTAR SELF-STICKING ALU SHEET

CHOVASTAR®

cód. 72123

Solar reflective aluminium finish waterproofing sheet

Description

ChovASTAR® SELF-STICKING ALU SHEET is an asphaltic waterproofing sheet for easy installation in sloping roofs and wooden pergolas.

For its aluminium finish is suitable for protecting your roof from solar radiation because a reflection is achieved up to 97% of UV rays, helping to improve the thermal comfort inside.

Easy installation
Embossed Aluminium
Finished
Thermal Insulation

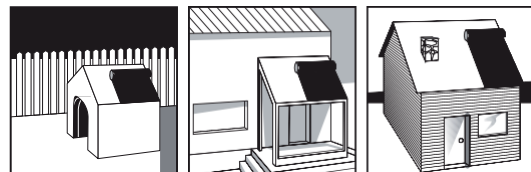

6x1 m

Installation

Initially you must clean the surface and apply a layer of ChovASTAR Surface Preparator to waterproof. Start installing the sheet in an upward direction from the bottom of the roof at the top, as shown in the drawings. Overlap the different sections about 10 cm and press with a roller to ensure adhesion.

For full details of product installation, see the instructions inside the box.

In case of doubt about the installations, please consult our Technical Department.
