

ChovASTAR SELF-STICKING GRANULE SHEET

CHOVASTAR®

cód. 31401 Red granule

cód. 31402 Grey Slate

Self-sticking granule finished waterproofing sheet

Description

ChovASTAR® SELF-STICKING GRANULE SHEET is an asphaltic waterproofing sheet for Easy installation in sloping roofs and wooden pergolas.

For its red granule or grey slate finish is suitable both for decoration and protect your roof form damp and rain.

Easy installation

Professional quality

6x1 m

Installation

Initially you must clean the surface and apply a layer of ChovASTAR Surface Preparator to waterproof. Start installing the sheet in an upward direction from the bottom of the roof at the top, as shown in the drawings. Overlap the different sections about 10 cm and press with a roller to ensure adhesion.

For full details of product installation, see the instructions inside the box.

In case of doubt about the installations, please consult our Technical Department.
